

**AAPS UK student chapter Event participation at the UK College of Engineering E-day
Feb 25, 2012**

Attendees: Kyle, Nilay, Ore, Andrei, Joseph, Dan, Xiaoda, and Lei

- Demonstrated the use of a tablet press and presented a display of the human brain to the students (K-12) who stopped by our booth
- Allowed for student participation in the making of effervescent tablets of different colors and showed them the difference in dissolution rate of normal tablets vs. effervescent tablets
- Involved the audience in a brief description of parts of the human brain and their functions
- Handed out candy, pencils, erasers, pens and sticky note pads to the students after the demonstrations
